

ALIKLER D

AGRI & FOOD
Foodstuff transfer

Applications

High pressure discharge of liquid foods-tuffs such as milk, beer, oil, fat, wine, cider, fruit juice and alcohol up to 96 %.
Suction on unloading bays in dairies.
Equipment of processing and filling plants, and liquid foodstuff tankers.

Advantages

- n Smooth, seamless, white, multipurpose food grade tube that does not propagate bacterial growth.
- n Able to recover its shape after accidental squeeze.
- n Changes in temperature have little effect due to the qualities of the rubber compound.
- n Resistant to cleaning with detergents at temperatures up to 130 °C (during several minutes).
- n Non-marking, abrasion resistant cover.
- n Contains no phthalate.

Technical description

Inner tube: food grade oil resistant NBR, white, smooth.
Reinforcement: synthetic textile with embedded PET helix for ID \geq 50 mm.
Cover: oil and weather resistant NBR/PVC, blue, fabric impression.
Temperature range: - 30 °C to + 100 °C.
Standard/Approval:
EU regulations n° 1935/2004 and 2023/2006.
FDA regulation 21 CFR 177.2600.
German legislation: BfR recommendation XXI cat. 2.
French legislation.
All relevant migrations tests (France and FDA) were performed and confirmed compliant by the French institute of Poitiers (IANESCO).

Couplings/Fittings

Specially designed fittings are available, please contact us for further information in order to get optimum connections.
